Portfolio

EDUCATION

- **Raj Kumar Goel Institue of Technology** Ghaziabad, India
● *Bachelor of Technology - Computer Science — GPA: 8.1* Jul 2019 - June 2023

SKILLS SUMMARY

- **Languages:** Typescript, JavaScript, Java, C#
- **Tools:** Git, GitHub, Linux
- **Libraries:** React, Redux, Material UI, Tailwind CSS, Bootstrap

PROJECTS

- **Budget-Tracker:** Code Demo
This is a user-friendly expense management app built with TypeScript, Redux, and Tailwind CSS. It ensures secure access through user authentication, allowing you to track your budget, categorize expenses, and gain insights into your spending habits effortlessly.
Tech: Typescript, React, Redux
- **Invoice Generator:** Code
This is a responsive React-based invoice generator that allows users to create, customize, and download invoices. Built with React and Tailwind CSS for a clean UI and smooth user experience.
Tech: React, Tailwind CSS
- **Food Recipe App:** Code Demo
This is a responsive food recipe application which has been developed using React, integrating the TheMealDB API to fetch and display a variety of recipes. The app allows users to search for meals, view detailed recipes, and explore different cuisines with a smooth and interactive UI.
Tech: React, Redux
- **Movie-App:** Code Demo
This is a React-based website that displays a list of movies with details like title, genre, rating, and description. It uses React hooks (useState, useEffect) for state management and API integration to fetch movie data. This project helps in learning React, API handling, and frontend development.
Tech: Typescript, React, Redux, Tailwind CSS
- **Shopping Cart:** Code
This is a simple user-friendly web application that allows users to select items from a product page and add them to a shopping cart. The cart can be accessed on a separate cart page, where users can view all added items.
Tech: React
